

Jeremy Guill

503-990-4832 | rbtm2006@me.com | 2408 SW Oakwood Drive, Dallas, OR 97338

Summary

Technology professional with over 15 years of experience spanning business ownership, technical support, and customer service. Combines hands-on IT expertise with entrepreneurial success in digital ticketing and 3D printing. Background in Computer Science with proven skills in operations management and technical problem-solving.

Education

Western Oregon University | Monmouth, OR | June 2026

Bachelors degree in Information Systems

Focused on systems, business logic, and database workflows.

Chemeketa Community College | Salem, OR | June 2024

Associates Degree in Computer Information Systems

Coursework in computer systems and information technology.

Portland Community College | Portland, OR |

Studies in Information System

Foundational coursework in information systems.

Experience

Western Oregon University | Front Desk Student Worker - TRIO | Monmouth, OR | October 2025 - January 2026

- Welcomed students, managed appointment check-ins, answered phone inquiries, and sent email reminders to ensure timely attendance.
- Developed and built a custom lending library check-in and check-out software system to streamline resource tracking.
- Redesigned the daily communication log system to improve shift handovers, ensuring seamless information transfer and task tracking between front desk staff.
- Reorganized the lending library to establish clear inventory records and map available books to their corresponding course schedules.
- Coordinated information and role assignments for events, facilitating effective collaboration among student workers and staff.
- Maintained common areas and managed inventory restocking of snacks and water to ensure a welcoming environment.
- Utilized Google Workspace, Gmail, Google Chat, Zoom, and PC systems to support daily administrative and communication workflows.

Dudefish Printing | Owner Operator | Dallas, OR | November 2024 - Present

- Owned and operated Dudefish Printing, managing end-to-end business operations including production, marketing, finance, insurance, website maintenance, and event sales.
- Sourced new print ideas and managed the full production cycle from printing through post-production.
- Researched and applied to markets and events, prepared marketing collateral, and set up and staffed the sales booth.
- Analyzed product sales performance to identify selling and non-selling items and inform business decisions.
- Streamlined the packing process to improve operational efficiency.
- Developed custom software to track market applications, company finances, and profits.
- Maintained the company website and handled all company insurance and financial management.
- Provided customer service at events, including answering questions and encouraging hands-on product interaction.
- Collaborated with a small family team, gathering feedback and maintaining morale to ensure team members felt valued.
- Networked with other vendors and market organizers, earning specific return invitations to multiple markets for being easy to work with.

Aarow Vans | Delivery Driver | Salem, OR | September 2020 - July 2022

- Managed daily package pickups at the distribution center and executed pre-determined delivery routes using a company-provided van and mobile device.
- Ensured the safe, timely, and accurate delivery of customer packages in accordance with daily schedules.
- Delivered high-quality customer service by personally handing packages to recipients and engaging in positive, friendly interactions.
- Recognized for outstanding performance and reliability, earning the Employee of the Week award for two consecutive weeks.

Grocery Outlet | Cashier / Deli Clerk | Dallas, OR | January 2019 - March 2020

- Processed customer transactions at checkout, ensuring accurate cash handling and providing responsive customer service.
- Promoted to Deli Assistant to oversee the stocking, organization, and pricing of pre-packaged deli products.
- Managed inventory rotation by checking expiration dates and placing newer stock at the back to minimize waste.

- Generated and updated product price tags using a Zebra device, resolving pricing discrepancies in the system and with customers.
- Monitored stock levels on deli shelves and communicated low-inventory items to the ordering manager to prevent stockouts.
- Managed deli department operations independently during afternoon and evening shifts.
- Supported overall store operations by assisting with cashiering, facing shelves, and retrieving shopping carts.

Salem Communications | Accounts Payable | Portland, OR | May 2018 - November 2018

- Processed multi-method payments including checks, credit cards, and cash, entered transactions into billing software, and managed collections and accounts receivable to maintain accurate balances.
- Developed and implemented a custom FileMaker program that automated the credit card authorization workflow by identifying processing dates, generating daily authorization lists, and matching receipts to customer files, reducing processing time by approximately 10 minutes per authorization.
- Audited automated billing script reports for advertisement airtime, identifying system errors and manually correcting or removing inaccurate billing entries within client accounts to ensure billing precision.
- Managed trade accounts by ensuring promotional airtime was correctly billed to trade balances rather than clients, and collaborated with sales representatives to update the system once trade values were depleted.

Apple, Inc | Family Room Specialist | Tigard, OR | November 2014 - June 2017

- Diagnosed and troubleshooted hardware and software issues for customers utilizing iOS devices.
- Formulated and executed customized resolution plans to address specific customer needs and technical issues.
- Educated customers on diagnostic findings and resolution plans, ensuring clear communication and alignment.
- Applied advanced customer service and de-escalation skills to manage challenging customer interactions, earning recognition and call-outs for excellent customer service.
- Maintained up-to-date knowledge of the latest iOS updates, technical news, and emerging system issues.
- Leveraged iOS certification and utilized macOS, iPads, email, and walkie-talkies to facilitate efficient daily operations and support.

Salem Communications | Promotions Assistant | Portland, OR | November 2013 - May 2018

- Developed a custom FileMaker database to automate the tracking of on-air prizes and winner information, eliminating manual errors and ensuring legal compliance for prizes valued at \$50 or more.
- Led the implementation of the new prize-tracking system by conducting role-specific group trainings and one-on-one coaching for DJs, sales representatives, and front desk staff.
- Coordinated volunteer staffing and event logistics for major station events, including Fish Fest, which required managing 100 to 150 volunteers for setup and 40 to 50 volunteers on the event day.
- Recruited, scheduled, and managed 20 to 40 volunteers for local concerts, distributing detailed schedules, role assignments, and break coverage plans to ensure seamless event operations.
- Served as the primary liaison between musical artists, band representatives, and merchandise teams, coordinating volunteer support and managing merchandise count-in and count-out processes.
- Collaborated with the sales department to execute live promotional remotes, driving the station promotional vehicle to off-site locations to engage with the public and promote station events.
- Administered staff timecards and processed payroll-related documentation in a timely manner to support station operations.

It's the Famous | Prep Guy | Salem, OR | January 2012 - March 2014

- Streamlined prep line operations by staging upcoming batches of produce in advance, maintaining a continuous workflow that increased daily production volume and shortened shift times.
- Conducted rigorous quality control inspections on all incoming produce, removing blemishes and managing ripening cycles to ensure only premium ingredients were used in salsa production.
- Managed cooler inventory using First-In, First-Out (FIFO) rotation principles, organizing products by production day to guarantee delivery drivers distributed the freshest stock.
- Portioned, labeled, and heat-sealed finished salsa containers using specialized equipment while maintaining strict sanitation standards.

Willamette Valley Transportation | Driver / Office Assistant | Salem, OR | October 2008 - June 2014

- Transported patients to and from homes, facilities, and hospitals using a company vehicle, ensuring safe arrival to appointments
- Assisted patients during loading and unloading, frequently supporting wheelchair passengers
- Secured wheelchairs and passengers using tie-downs and seatbelts in accordance with company policy and legal requirements
- Documented trip details including mileage, origin, and destination; completed and submitted required paperwork for billing
- Answered multi-line phone calls and triaged requests, handling scheduling issues and routing billing calls to the billing department
- Assisted dispatcher with driver scheduling for patient pick-ups and drop-offs
- Designed and built a Microsoft Access scheduling tool ("Pollywog") to import TripLink CSV exports, structure trip data, and generate driver schedules for dispatcher review

- Automated driver schedule distribution by generating and emailing schedules directly to drivers, minimizing training needs for drivers
- Reduced nightly scheduling preparation from an average of ~4 hours to ~30 minutes by replacing a manual process with an automated workflow
- Developed and refined a trip-assignment algorithm to optimize routing and scheduling based on driver location, timing, and vehicle fit, avoiding inefficient cross-town dispatching
- Incorporated vehicle capability rules (wheelchair, ambulatory, stretcher) into scheduling logic to prevent incompatible trip combinations on a route
- Improved automated schedule-placement accuracy from ~75% to ~93% over three years through iterative algorithm tuning and process optimization
- Troubleshooted and resolved ongoing software bugs and maintained the scheduling tool after launch
- Trained dispatcher and billing staff on the nightly workflow to download TripLink data, upload CSVs, run schedules, complete checks (e.g., empty pool), and send driver emails
- Tracked fleet maintenance using a spreadsheet and managed service intervals (oil changes, repairs, recalls) across vans
- Coordinated vehicle downtime with dispatch, drivers, and an on-site repair shop to complete maintenance while minimizing operational disruption
- Created and implemented a company-wide accident response kit to standardize accident information collection for drivers, reducing follow-up communications by an estimated 2+ hours per incident
- Maintained situational awareness of driver locations and activities to support day-to-day operations
- Earned a bonus and two raises for delivering operational time savings and coordinating implementation of the scheduling automation initiative

Life Church | Front Desk Receptionist | Salem, OR | April 2008 - May 2008

- Greeted visitors, checked in scheduled appointments, and provided front-desk assistance for walk-in needs
- Collected and documented visitor information (name, phone, and details of need/complaint) and routed requests to the pastor on duty via intercom
- Managed incoming calls on a multi-line phone system, transferring calls to the appropriate staff member
- Prepared the weekly Sunday service bulletin by compiling event information from pastors, ministry leaders, and the church calendar under weekly deadlines
- Created and formatted bulletins using Microsoft Publisher and email-based content submissions
- Proofread bulletin content with office staff to ensure accuracy in spelling and grammar before production
- Produced and distributed weekly bulletins by copying, folding, and organizing materials using office equipment (copier and folding machine)
- Assisted with front-desk item pickup by verifying and distributing materials left for individuals
- Used fax machine and email to support routine office communications and document handling

Figaros Pizza - West Salem | Delivery Driver / Prep cook | Salem, OR | November 2007 - August 2008

- Delivered pizza orders to customers and ensured satisfaction with service and product
- Verified order accuracy by confirming all items (e.g., pizzas, salads, beverages) were included before departure
- Managed cash handling on deliveries, ensuring adequate change and accurate change returned to customers
- Resolved cash/change discrepancies by returning to the shop to obtain correct change and completing follow-up delivery
- Used mobile GPS navigation to route efficiently and avoid getting lost during deliveries
- Assisted with pizza preparation during downtime, including topping pizzas and prepping ingredients
- Baked pizzas and monitored product through the oven process to meet quality standards
- Cut and boxed pizzas for delivery and carryout orders
- Bagged completed orders for delivery to ensure items were secure and organized
- Took customer phone orders and communicated order details to the kitchen
- Supported front counter operations by checking out customers picking up orders
- Floated across kitchen duties as needed to help maintain throughput during busy periods

KCCS | Role not provided | Salem, OR | April 2007 - April 2007

West Coast Bank | Teller | Salem, OR | July 2006 - September 2007

- Maintained 100% balanced cash till across all shifts as a bank teller at West Coast Bank
- Greeted customers and processed deposits, withdrawals, and safe deposit box access for both consumer and business clients
- Processed traveler's checks, money orders, and drive-through transactions to support full-service banking operations
- Served both consumer and business customers, processing daily transactions up to \$10,000 for consumers and \$100,000 for businesses
- Ensured strict adherence to all banking laws, regulations, and institutional compliance practices in every transaction

Lowell MacGregor Group | Group ticket manager | Vancouver, WA | July 2006 - March 2008

- Managed group ticket sales for Christian concerts and events, handling groups of 10 or more with a typical ticket size of approximately 15 attendees

- Generated group sales leads primarily through cold calling, targeting churches, youth groups, businesses, and nonprofit organizations
- Built and maintained a small repeat client base, proactively informing them of upcoming event opportunities to drive recurring group bookings
- Processed group ticket sales end to end, coordinating with the ticket office to ensure all order and seating information was accurate
- Arranged group seating benefits including block seating, group discounts, dedicated check-in locations, and a single point of contact for group leaders
- Provided on-site customer service on event days, greeting groups, escorting them to their seats, checking in on their needs, and distributing merchandise when provided

Holiday Inn Express | Role not provided | Salem, OR | August 2004 - October 2004

Extreme Productions | Role not provided | Salem, OR | April 2004 - July 2004

Certifications

- **iOS Certified** (Apple Certification)
