Summary

Technology professional with over 15 years of experience spanning business ownership, technical support, and customer service. Combines hands-on IT expertise with entrepreneurial success in digital ticketing and 3D printing. Background in Computer Science with proven skills in operations management and technical problem-solving.

Experience

DUDEFISH PRINTING | Owner/Operator | Dallas, Oregon | 11/2022 - Present

As founder and manager of Dudefish Printing, I oversee all aspects of this successful 3D printing business specializing in custom figurines and collectibles. My responsibilities encompass product design, licensing acquisition, and inventory management. With participation in over 20 annual events in 2024 including county fairs, holiday markets, gaming conventions, and local festivals throughout Oregon, I personally manage our vendor presence to showcase and sell our products. Additionally, I handle all financial operations, maintain vendor relationships, and drive business development initiatives to ensure continued growth and success, resulting in consistent expansion of our market presence and customer base.

AAROW VANS | Delivery Driver | Salem, Oregon | 9/2020 - 7/2022

In my role at Aarow Vans, I worked closely with dispatch and team members to ensure timely and accurate deliveries. My responsibilities included maintaining detailed delivery records, obtaining necessary signatures, and managing cargo handling. I developed efficient route optimization strategies to maximize delivery efficiency while maintaining high standards of customer service.

SALEM MEDIA GROUP | Promotions And Engineering Assistant | Portland, Oregon | 8/2015 - 11/2018

During my tenure at Salem Media Group, I provided comprehensive technical support for in-house technology systems while working alongside the Lead Engineer. I was instrumental in organizing and executing large-scale events and concerts, managing public relations, and conducting promotional activities. My role included maintaining and troubleshooting broadcast equipment to ensure smooth operations.

APPLE INC. - BRIDGEPORT VILLAGE | Family Room Specialist | Portland, Oregon | 11/2014 - 6/2017

As an iOS-certified specialist at Apple, I provided expert technical support to customers while maintaining the company's high standards for customer service. My responsibilities included diagnosing and resolving complex hardware and software issues, processing repairs, and managing customer relationships. I consistently worked to ensure customer satisfaction through excellent service and support.

Education

Western Oregon University | Monmouth, Oregon | 6/2026 | Bachelor's Degree - Information Systems
Chemeketa Community College | Salem, Oregon | 6/2024 | Associates Degree - Information Systems
Portland Community College | Portland, Oregon | 2013-2015 | Information Systems
